

RAIL BAND SAW

- Electrically operated 110v/240v
- High precision cuts quickly
- Reduces preparatory work prior to welding saving 40-50 minutes per weld
- Suitable for operation in metros (as used by London Underground)
- Average 20 cuts per blade
- Easy to operate and handle
- Environmentally friendly: no emissions, low noise, low vibration
- Low cutting costs
- Fast and precise

BANCE

RAIL BAND SAW

TECHNICAL SPECIFICATION

Width: Length: Height:	630mm 640mm 558mm	
Weight of Clamp:		19Kg
Weight of Frame:		37Kg
Cutting Capacity:		150mm x 180mm
Blade Type:		Bi-band RIX-Astroflex
Blade Toothing:		4/5 CHIP-Splitter
Speed:		40m per minute
Blade Tension:		35-40 bar
Coolant Tank:		1 litre
Motor:		110v / 240v
